Dr. Beckwith's letter.

I have satisfactory evidence that Beckwith's pills we been extensively counterfeited in various parts the country, and particularly at New York, and at prices much below what the genuine article to be afforded at.

the country, and particularly at New Pots, and all at prices much below what the genuine article in be afforded at.
Since the agency of Mr. Henry D. Turner, John creet, New York, ceased, on the 14th February, p. 844, I have appointed no agents, and now have one in any section, except Dr. T. W. Dyott & Sons, at the Columbian College, Philadelphia. Those, wherefore, who wish to purchase or take the gentine pills, must obtain them either of myself, or of hose gentlemen, or of persons known to purchase hem of one or the other. Dr. Dyott & Sons are transled by me to sell upon the same terms as I do myself.

Protection against counterfeits.

Dr. Beckwith, proprietor of "Beckwith's antidyspeptic pills," having suffered great loss, as well
as those who have been in the practice of using his
pills being disappointed and their health injured:

It will be seen by Dr. Beckwith's letter of June 1,
1845, that he has adopted the only safe plan for himself and the public against these miscreants, by having placed the sale of his medicine in the hands of
one special agent, where every one who wishes to
be supplied with the genuine atticle must apply.

Dr. T. W. Dyott & Sons, of the Columbian
College, No. 132 North Second street, Philadelphia,
are the only persons appointed to supply the above
pills in quantity, as no counterfeit article is permitted in their establishment. Dealers and the public
will be safe in supplying themselves as above.

PROSPECTUS OF THE NEW LIBRARY

sion of Francis J. Troubat, esq., of Philadelphia; Hess. Ellis Lewis, of Lancaster; and Wilson Mc. Candless, seq., of Pitaburgh.

This work contains the best productions of English law authors, without regard to priority of claim on the part of any American publisher. Such books are now notoriously too dear. The reason is, that as a feat as they appear, they become monopoles in the hands of booksellers in the Atlantic cities. Under the plan of right, acquired by the addition of mores of American decisions, the latter claim an undivided title to those works, and set a burdensome price on them. The publishers of the work now offered to the profession throughout the Union, will not respect such titles, but will reprint the standard British law books as fast as they emanate from the London market. Should new editions of the works of such writers as Starkie, the Chittys, Stephen, and Archbold, appear, they shall also be included; and digests of equity and law decisions—works which have been studiously kept out of the Law Library, published at Philadelphia—shall have a place in the proposed new one, together with every new valuable English treatise on chancery or common law.

DR. DYOTT'S ANTI-BILIOUS PILLS.
As a family medicine, a mild and gentle purgative, and purifier of the blood. The general use of these celebrated pills throughout the United States for these forty years past, and the strong recommendations they have acquired from all classes of our fellow-citizense, places them in a much more elevated situation in public estimation, than any other remedy which has heretofore been introduced.

The following are among the many diseases for which Dr. Dyott's celebrated pills are so deservedly distinguished for curing. By their counteracting proporties in removing the bile from the stomach, they prevent and cure the bilious fever; chills, or ague and fever; spring and fall fevers; yellow fever; bilious cholic; pleurisy; dysentery; worms; bilious vomiting; sick and foul stomach.

By cleansing the bowels and stomach from all impurities, they reatore the loss of appetite, remove flatulency, cure the headache, habitual contiveness, colds, coughs, asthma, epileptic fits, hypochondrin, thysterical complaints, stranguary, gravel, &c.

By a general and copious use, they will be found overy beneficial in curing the rheumatism and gout, immago or pains in the blood yield to their happy effects, whether proceeding from constitutional all-ment, or from indiscret intemperance.

These celebrated pills have been used to very great advantage in curing the dyspepsia, or indigestion, bronchitts, liver complaint, &c.

They are an infallible medicine for female complaints generally, and capecially for removing those obstructions which are the source of their allments at certain periods; they possess the eminent advantage over most other purgatives, that, while they operate agently, they produce neither coasiveness, debility, or too great excitement.

Whenever there is a predisposition to receive diseases from marsh effluvia, or from a too copious cuse of ardent spirits, or from a vitinated state of the bile, these pills will assuredly counteract it.
